ONLINE SHOPPING WEBSITE

HTML Code • CSS Code • Website Output

Project Overview

This beginner-friendly project shows a simple online shopping page. It includes a navigation bar, search area, promotional banner, product categories, product cards with prices, discounts and ratings, and a footer. The layout adjusts for smaller screens.

Files Required

index.html – creates the webpage structure.
style.css – adds colours, spacing and layout.

1. HTML Code (index.html)

```
<!DOCTYPE html>
<html>
<head>
    <title>Online Shopping Website</title>
    <link rel="stylesheet" href="style.css">
</head>
<body>

    <!-- Navigation Bar -->
    <header>
        <h1>■■ My Shopping</h1>
        <nav>
            <a href="#">Home</a>
            <a href="#">Products</a>
            <a href="#">Orders</a>
            <a href="#">Profile</a>
            <a href="#">Cart ■</a>
        </nav>
    </header>

    <!-- Search Bar -->
    <div class="search">
        <input type="text" placeholder="Search products...">
        <button>Search</button>
    </div>

    <!-- Banner -->
    <div class="banner">
        <h2>Big Shopping Sale!</h2>
        <p>Get up to 50% OFF on your favourite products.</p>
        <button>Shop Now</button>
    </div>

    <!-- Categories -->
    <h2 class="heading">Product Categories</h2>
    <div class="categories">
        <button>Electronics</button>
        <button>Fashion</button>
        <button>Footwear</button>
        <button>Accessories</button>
    </div>

    <!-- Products -->
    <h2 class="heading">Our Products</h2>

    <div class="products">

        <div class="product">
            <img src="https://placehold.co/200x150?text=Headphones">
            <h3>Headphones</h3>
            <p>Good quality wireless headphones.</p>
            <p>■999 <del>■1499</del></p>
            <p>20% OFF</p>
            <p>■ 4.5/5</p>
            <button>Add to Cart</button>
        </div>

        <div class="product">
            <img src="https://placehold.co/200x150?text=Watch">
```

```
            <h3>Smart Watch</h3>
            <p>Stylish watch with smart features.</p>
            <p>■1499 <del>■1999</del></p>
            <p>25% OFF</p>
            <p>■ 4.2/5</p>
            <button>Add to Cart</button>
        </div>

        <div class="product">
            <img src="https://placehold.co/200x150?text=Shoes">
            <h3>Shoes</h3>
            <p>Comfortable shoes for daily use.</p>
            <p>■799 <del>■1199</del></p>
            <p>30% OFF</p>
            <p>■ 4.3/5</p>
            <button>Add to Cart</button>
        </div>

        <div class="product">
            <img src="https://placehold.co/200x150?text=Bag">
            <h3>School Bag</h3>
            <p>Lightweight and stylish bag.</p>
            <p>■599 <del>■999</del></p>
            <p>40% OFF</p>
            <p>■ 4.6/5</p>
            <button>Add to Cart</button>
        </div>

    </div>

    <!-- Footer -->
    <footer>
        <p>© 2026 My Shopping Website</p>
        <p>Thank you for shopping with us!</p>
    </footer>

</body>
</html>
```

2. CSS Code (style.css)

```
/* General Style */
body {
    font-family: Arial;
    margin: 0;
    background-color: #f2f2f2;
}

/* Navigation Bar */
header {
    background-color: purple;
    color: white;
    padding: 15px;
    text-align: center;
}

nav a {
    color: white;
    text-decoration: none;
    margin: 15px;
}

/* Search Bar */
.search {
    text-align: center;
    padding: 20px;
}

input {
    padding: 10px;
    width: 200px;
}

button {
    background-color: orange;
    border: none;
    padding: 10px;
    cursor: pointer;
}

/* Promotional Banner */
.banner {
    background-color: pink;
    text-align: center;
    padding: 30px;
    color: purple;
}

/* Headings */
.heading {
    text-align: center;
    color: purple;
}

/* Categories */
.categories {
    text-align: center;
    padding: 10px;
}

/* Product Grid */
.products {
    display: flex;
    flex-wrap: wrap;
    justify-content: center;
    gap: 20px;
    padding: 20px;
}

/* Product Card */
.product {
    background-color: white;
    width: 200px;
    padding: 15px;
    text-align: center;
    border-radius: 10px;
    box-shadow: 0 0 5px gray;
}

.product img {
    width: 100%;
    height: 150px;
}

/* Product Button */
.product button {
    background-color: purple;
    color: white;
```

```
    border-radius: 5px;
}

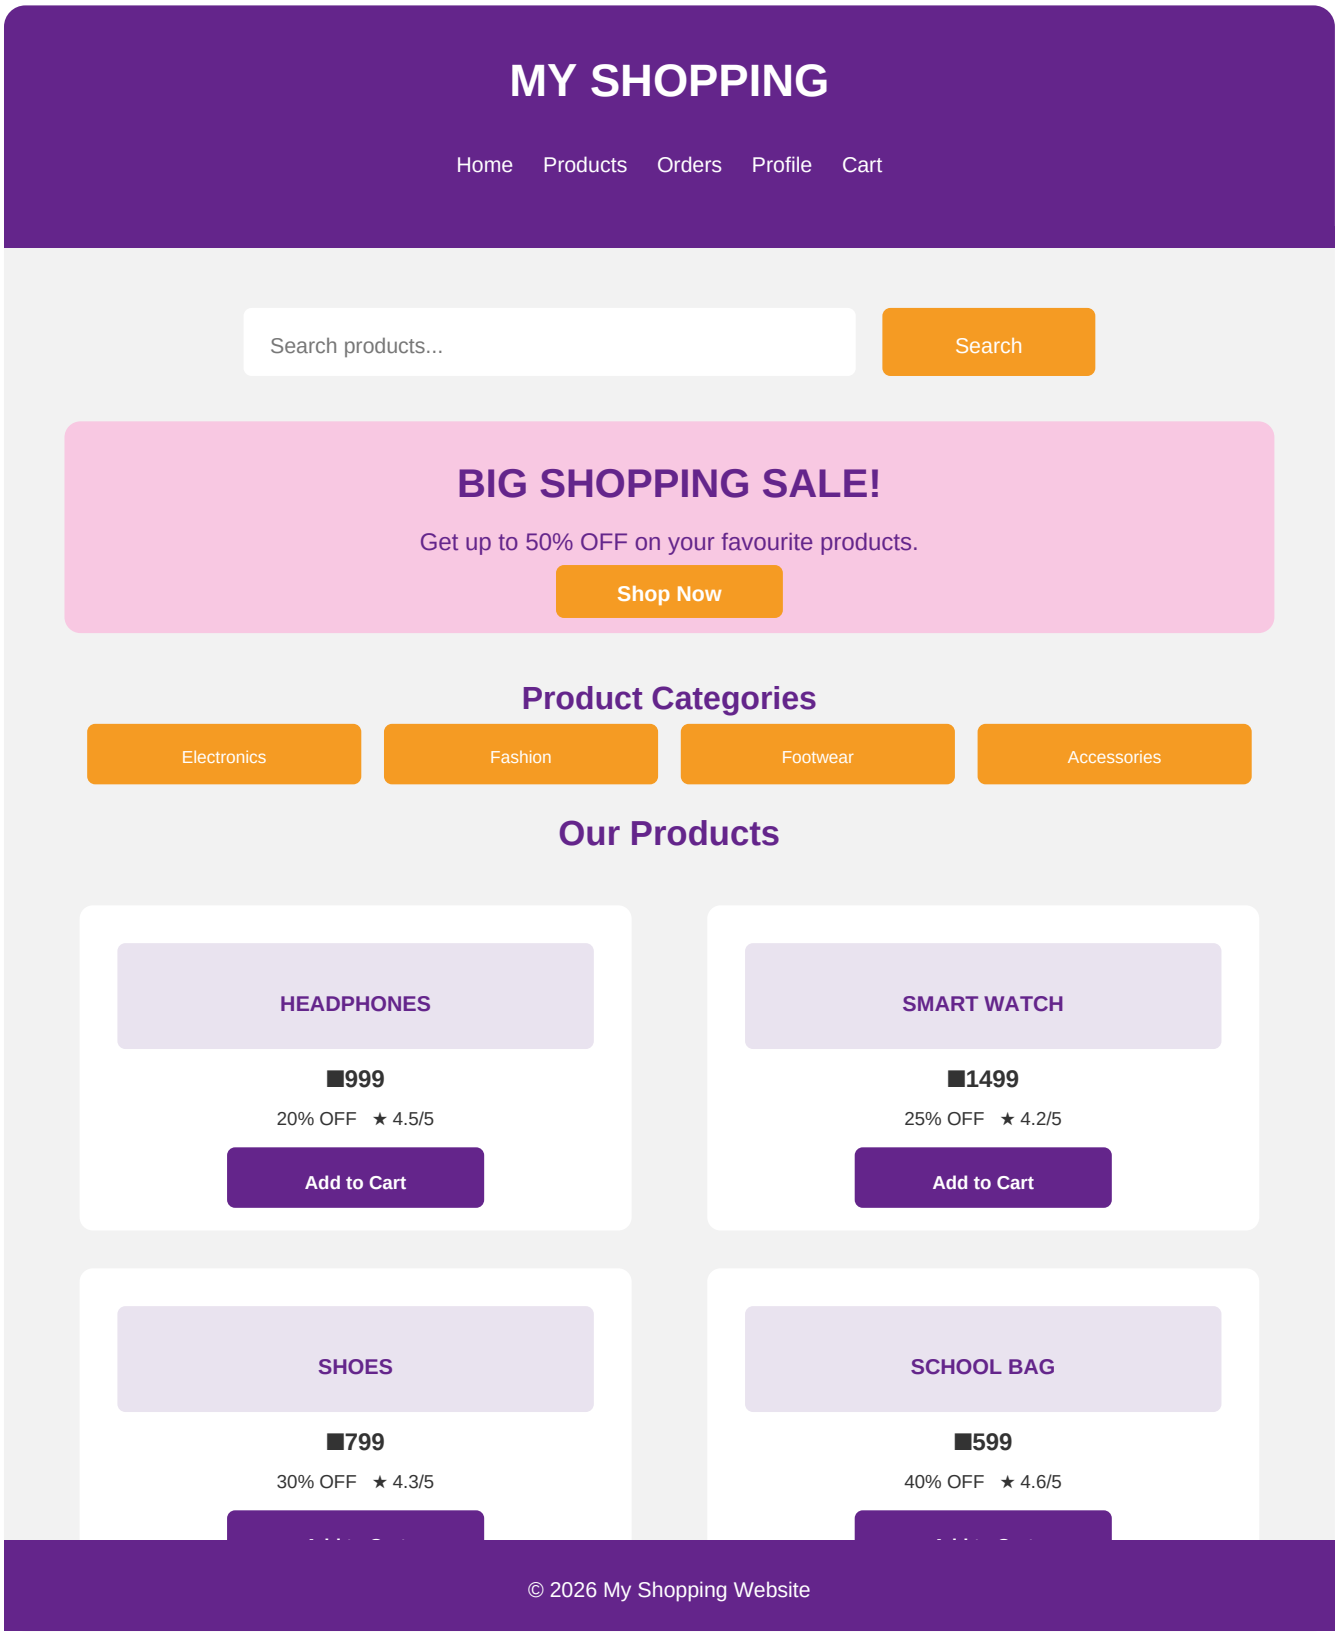
/* Footer */
footer {
    background-color: purple;
    color: white;
    text-align: center;
    padding: 15px;
}

/* Mobile Responsive */
@media (max-width: 600px) {
    nav a {
        display: inline-block;
        margin: 5px;
    }

    .products {
        flex-direction: column;
        align-items: center;
    }
}
```

3. Website Output

The following is a sample preview of how the webpage looks when the HTML and CSS files are opened together in a browser.



How to Run the Project

1. Create a folder named **Shopping Website**.

2. Inside the folder, create two files: **index.html** and **style.css**.

3. Paste the HTML code into index.html and the CSS code into style.css.

4. Save both files in the same folder.

5. Open index.html in a web browser to see the output.

Note: The Search and Add to Cart buttons are design examples only. JavaScript is needed to make these features work.
